Graveside Rites Held Tuesday for Bo-Bo Hazlewood

Graveside rites were conducted for 3½ year old James Myron (Bo-Bo) Hazlewood Tuesday at 3 p.m. at the McCaulley Cemetery. Thomas E. Cudd, minister, Hamlin Church of Christ, officiated.

Bo-Bo died of cancer Sunday night at Texas Children's Hospital in Dallas. His mother, Mrs. Rebecca Hazlewood, granted permission for Dallas specialists to perform an autopsy for research purposes. The autopsy was performed Monday. Mrs. Hazlewood has not been notified of the results. She said the child's illness was diagnosed as reticulum cell sarcoma, or cancer of the cells.

The boy had been in ill health about four months and had been hospitalized for about a month and a half. He was transferred to Dallas from Hendrick Hospital in Abilene.

Survivors include his mother, a waitress at Tom's Drive In, North Second and Mockinbird, in Abilene, the father, J. L. Hazlewood of Wichita Falls, sister, Sherry Regina; and the maternal grandparents, Mr. and Mrs. J. E. Harvison of McCaulley.

Mayor Urges Support of Poppy Campaign

Mayor John Howard Jr., today gave his whole-hearted support to the Veterans of Foreign Wars Buddy Poppy campaign which will be held Saturday, May 26.

In explaining his reasons for backing the Campaign, Mayor Howard stated:

"The wonderful things that the V.F.W. is doing with the proceeds from the annual Buddy Poppy Sale more than warrant a generous contribution on each member of this community. The prompt help given to our disabled and needy veterans, the magnificent care given the orphans and widows of our honored war dead, the sterling of true Americanism these are some of the high commendable things being done by the V.F.W. through the unselfish support of the Buddy Poppy Sale.

"When we buy our Buddy Poppies on May 26," continued Mayor Howard, "we may give heartfelt thanks that in this sale but important way, we are able to acknowledge that we owe those courageous men who were ready to give their lives at a time when our nation could not survive without them. Hundreds of thousands did give their lives and these men we cannot forget."

School Transfer

All persons who are interested in transferring their children from one school district to another must contact Superintendent of Schools, F. Cook, before the first of June.

This well known group adds comedy and showmanship to their exceptional musical talents. They have toured the world and seem to have a sixth sense when it comes to pleasing an audience. They can chalk up many firsts in their scrap book—but one they like to remember is that they are the only Western-Swing group to play in the fabulous Desert Inn, Las Vegas.

Belle Starr, a swinging bit of Texas, mingled with a bit of Irish, is a delightful counterpart to the droll antics of Ray Riggs and the brass comedy of Tex Dean. Belle sings everything from "The Birth of The Blues" to a smashing take-off on "An Old Cold Tater," with a style that has made her a hit with the "Hep" crowd as well as the "Solid" country group. Many of the numbers, done by this versatile trio are original and were composed by Belle.

Tex Dean's experience runs the gamut from "Wild West Rodeoing" to personal appearances around the world. One of his greatest tours was with the famous "Gene Austin." He has been a side-kick to many of the great Western Style artists, Jimmy Wakely, Johnny Horton, Tex Ritter. Tex's comedy has been rated top-drawer—but he says "Heck, I'm only doing what comes naturally—what's the fuss?"

Ray Riggs is a new comer to show business with his fantastic artistry on the Spanish guitar. Ray started at the age of five to master the violin and accomplished that in a very short time—He can still hold his own, with the best. By the time he was ten, he could play the piano with a master's stroke. Any free time, now, will find him setting in with any group, on the drums.

Those in the trade say that he could give lessons to most drummers. However, just four years ago, he really found his forte in the take-off or Spanish guitar. Lawrence Welk and Louis Prima are among those that have extended a standing invitation to join them on a permanent basis—but, his loyalty to Belle and Tex is paramount to this boy, who is just barely out of his teens. The future holds great promise and will surely reward him, for his devotion to his art.

The group is scheduled to appear with Ed Sullivan in the near future and have been signed to play "Auction Dollar Day" trade promotions and fund-raising shows for Fund Raising Counselors of Missouri, before accepting a series of long engagements in Alaska.

Much more can be said of this group, but putting them together was a stroke of genius, because you would have to search a long time to find three more companionable people, with more devotion to their chosen profession.

MERCHANTS GIVING 'DOLLARS' FOR BIG AUCTION SATURDAY

"Auction Dollar Days" in Hamlin continue this week end and will climax Saturday evening with the big auction to be held in the street along side of the F and M Bank building. Most of the merchants of Hamlin are taking part in the big special event sponsored by the Retail Trade Committee of the BCD.

The public will have an opportunity to get Auction Dollars this Thursday, Friday and

Saturday to bid with on the many prizes to be auctioned off Saturday evening.

Among the many prizes to be auctioned off during the event include a work or fishing car, 30 half-gallons of 'Fro-zan,' table lamps, breadspread, ham-mers, billfolds, iron, toaster, gift certificates, and many more items.

The auction items are on display in the Hamlin Herald window.

In addition to the big auction to be held on Saturday, the merchants have made arrangements for "Belle Starr and The Texans" to present two free shows during the afternoon. The first show will be at 2:30 and the second at 6:30. The auction will follow the final show.

For every dollar purchased during the six big days the participating merchants will give one auction dollar that can be used during the auction. Real money cannot be used and it costs nothing to participate in this unique auction and have loads of fun. A limit will be set on purchases over one hundred dollars, so that everyone may have an equal opportunity to bid on the valuable prizes.

Many outstanding bargains will be offered on "Auction Dollar Days." Shoppers are urged to shop in Hamlin and take advantage of this big sales event. Look for the identifying poster and be sure to ask for your "Auction Money"—save it for many wonderful prizes.

TEXTBOOKS BACK IN LIMELIGHT — After seven months of hot controversy in Board of Education and House Investigating committee hearings, over textbooks recommended by the 1961 State Textbook Committee, a new cycle of interest began Friday as the newly appointed 1962 committee held its first meeting.

The committee, made up of 15 educators from various congressional districts in Texas, has the awesome task of studying every book offered by textbook publishers. Five books on each public school course due for new material will be submitted to local school boards for selection.

Committeemen will study the books with the aid of some 700 advisors and readers during summer months. Hearings on objections from organizations and individuals are set for September.

According to adoption procedures, anyone may protest a book. But no one can defend a protested book, except the publisher. He can file a written rebuttal after application for hearing objections are received in August.

One step toward blanket censorship was taken by the Board itself when it refused to accept Education Commissioner J. W. Edgar's recommendation to readopt five high school economic texts. Some board members felt the books were anti-capitalist.

R. W. Byram of Austin ignored W. T. Dungan's request to hold action on the matter until the House Textbook Investigating Committee, which he leads, has time to evaluate the disputed books more carefully.

64 BILLION QUESTION—Officials at the Texas Highway Department started tossing statistics around like confetti as Governor Daniel proclaimed the week of May 20-26 as "Highway Week."

State Highway Engineer D. C. Greer called Highway Week "an appropriate time to pose the 64-billion-mile question," which means he's worried about meeting expected needs of Texas motorists who will travel 64 billion miles over state highways in 1970.

Today owners of Texas' five million vehicles drive about 43 billion miles a year. Ten years ago, they traveled only 27 billion miles.

The department began paving the way for the anticipated increase this week as Highway Commissioner Herb Petty Jr. announced approval of the 1962 Farm-to-Market Road program.

A total of 1,216 miles of new FM roads will be built at a cost of \$23,500,000. Bids were received on 889 miles of highway repair which will run about \$16,700,000.

COSTLY CARELESSNESS—Highway Department figures it could build a lot more road mileage—72 miles of farm-to-market roads or 24 miles of two-lane primary highways—if the \$2,000,000 that was spent to remove litter and repair vandalism damage last year was available for construction.

Motorists toss everything from beer cans, to watermelons, to milk cartons and cigarette packages along the state's 63,000-mile road system. Then the highway workers have to do the pick up job.

Department officials compared this to a man throwing trash in his own yard and then paying someone else to pick it up. Damage to road signs accounted for \$385,900 of the super cleaning bill.

INDIAN CARE TAKES WAMPUM—Texas spent \$78,104 during the fiscal year ending August 31 to keep up the

Alabama - Coushatta Indian Reservation at Livingston. The reservation is managed under the direction of the State Hospitals and Special Schools Board.

The advent of eight papooses during the year helped increase the number of reservation dwellers in the tribes from 572 in 1960 to 585 in 1961. It's impossible to keep an accurate count of the number of Indians who are eligible to live on the 4,351-acre reservation, since the Alabamas and Coushattas are free to leave and return at will and many choose to live off the allotted land.

In spite of an annual legislative appropriation, the Indians are self-sustaining to a considerable degree.

NEINDA PHILOSOPHER TELLS HOW HE GETS IDEAS FOR ALL THESE LETTERS TO THE HERALD

Editor's note: The Neinda Philosopher on his Johnson grass farm on route one tries to tell where he gets his ideas for letters. We're still not sure.

Dear editor:

A man came up to me the other day and said, "Say, where do you get your ideas for writinz all these letters to The Herald?"

Well, for one thing, you've got to think. Say you come out of your house on a bright sunny morning and see a hoe leaning against a shed and

weeds in your crops. This makes a man think, and since anybody knows it's impossible to swing a hoe and write a letter at the same time, I put first things first and leave the hoe alone. Anybody ought to know a lack of thinking has done the world more harm than a lack of weed-chopping, and I don't want anybody accusing me of falling down on my job.

The trouble with too many people is that they don't see things large enough. This is an intercontinental guided missile age we're living in, and a man can't afford to get too limited in his concern, he's got to widen his horizons.

For instance, with the United States' national debt approaches 300 billion dollars, a man has to be spending any time worrying about the \$100 note he owes at the bank. It seems wasteful to me to be worrying over a hundred dollars when for the same amount of effort you can be worrying over three hundred billion.

When the roof of the world may be about to cave in, it

seems to me I'd be derelict my duties if I was up on top of my house patching mine.

With the wall in Berlin causing so much trouble, seems sort of unstatesmanlike for me to be out fixing a fence. Why risk offending the world opinion?

I know everybody is supposed to get ahead in life, but if somebody didn't get behind how could anybody get ahead? Weeds ought to be chopped right, but a man should serve some time for thinking after he has provided his family with the four basic necessities for life: food, clothing, shelter and television.

Yours faithfully,
J. A.

Johnson Grass Control Methods Given by Agent

Johnson Grass can be effectively controlled with a chemical called Sodium Dalapon, according to county agent, Kirby Clayton. For best results, Clayton says the chemical should be mixed at the rate of 20 pounds per 100 gallons of water and applied to spring growth about 10-12" high as a foliage spray. If grass is older and tougher, it is harder to kill. On this size grass, the rate of chemical should be increased to 30 pounds per 100 gallons of water for most effective control.

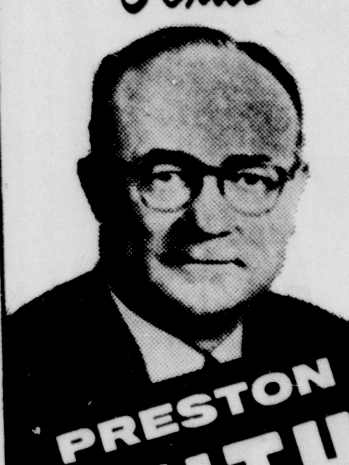

For spot spraying scattered stands of Johnson grass in cotton, Clayton recommends the use of a Naptha type oil with C-56 additive for increasing the kill. A three gallon gravity flow type sprayer is well adapted for this kind of work.

SUPERINTENDENT COOK MAKES STATEMENT OF APPRECIATION

I would like to express my thanks and appreciation to each person in the Hamlin School District for the cooperation and help you have given the School Board, faculty and myself all these years, especially your fine gestures and assistance this year. I have enjoyed working with and for you good people.

The Principals, Mr. B. V. Newberry, Mr. Marvin Carlton, Miss Odean Murphree, Mrs. Fred Smith and Mr. I. J. Starr, have been so cooperative and helpful in administering our School Program. A good school system must have good principals with teachers cooperating. This, I believe we have. I thank these people very much for their efforts and leadership.

The faculty of the Hamlin Schools is well qualified. We have all degree teachers. We

have 55 teachers in our school system, and 25 of these have Master Degrees. This is above the average in schools of our size. I am quite pleased with the interest of improving themselves.

We have been blessed with fine leadership from our student body. This has been one of our best school years. Our school has excelled in many departments in competition with other schools. Subjects taught in our school but do not compete with other schools, such as English, Mathematics, Spanish, Social Studies, we think have been outstanding. The elementary grades, primary, elementary and junior high, have been high satisfactory. The leadership and help from so many have been wonderful.

I am looking forward to our next school year. I am expect-

ing the same help and cooperation I have received in the past. We must work together if we give our children the advantages they deserve.

I sincerely hope the students and parents are well pleased with the results and progress of their grades. I am sure that we have those who have not progressed and received good grades, that unhappy. I will suggest, if you are unhappy with the results of your children's work contact their teachers and principals. I hope the instruction and efforts of the teachers will be appreciated.

I will be most happy for any constructive suggestions or recommendations.

Singing Sunday

TELEPHONE TALK
by Roy Eury, Manager

FARM INTERPHONE
In this column recently I mentioned a new telephone service for farms — the Farm Interphone — that has really caught on.

With Farm Interphone, you can talk from the barn or elsewhere without taking a step or interrupting your work. Your wife can handle calls and talk with you without running to farm buildings, trying to locate you.

Farm Interphone helps you run things more smoothly... saves time and money... the handiest helper you ever had! Call me sometime soon. I'll be glad to show you what Farm Interphone can do for you.

ANXIOUS MOMENTS
Some of you mothers remember all too well the first night your son or daughter was away from home. The house was quiet and lonely. You didn't dare look at your husband, for fear the tears would come. So you just sat there waiting. And you knew he was waiting too.

Then it happened. The telephone rang. Almost before you knew it, you were talking with your youngster, feeling the youthful enthusiasm behind the words...

"Everything's wonderful, mom. I sure miss you and dad."

At that moment, you learned the true value of your telephone.

All of us tend to take our telephone for granted. Usually it takes something simple to make us realize how much we depend on it. Like my wife telling me the other day...

"Life just wouldn't be the same without the telephone."

And you know something? She's right.

TELEPHONE FILMS
Ever stumped for a program for your club, church, or civic group? Next time, call us at the telephone company.

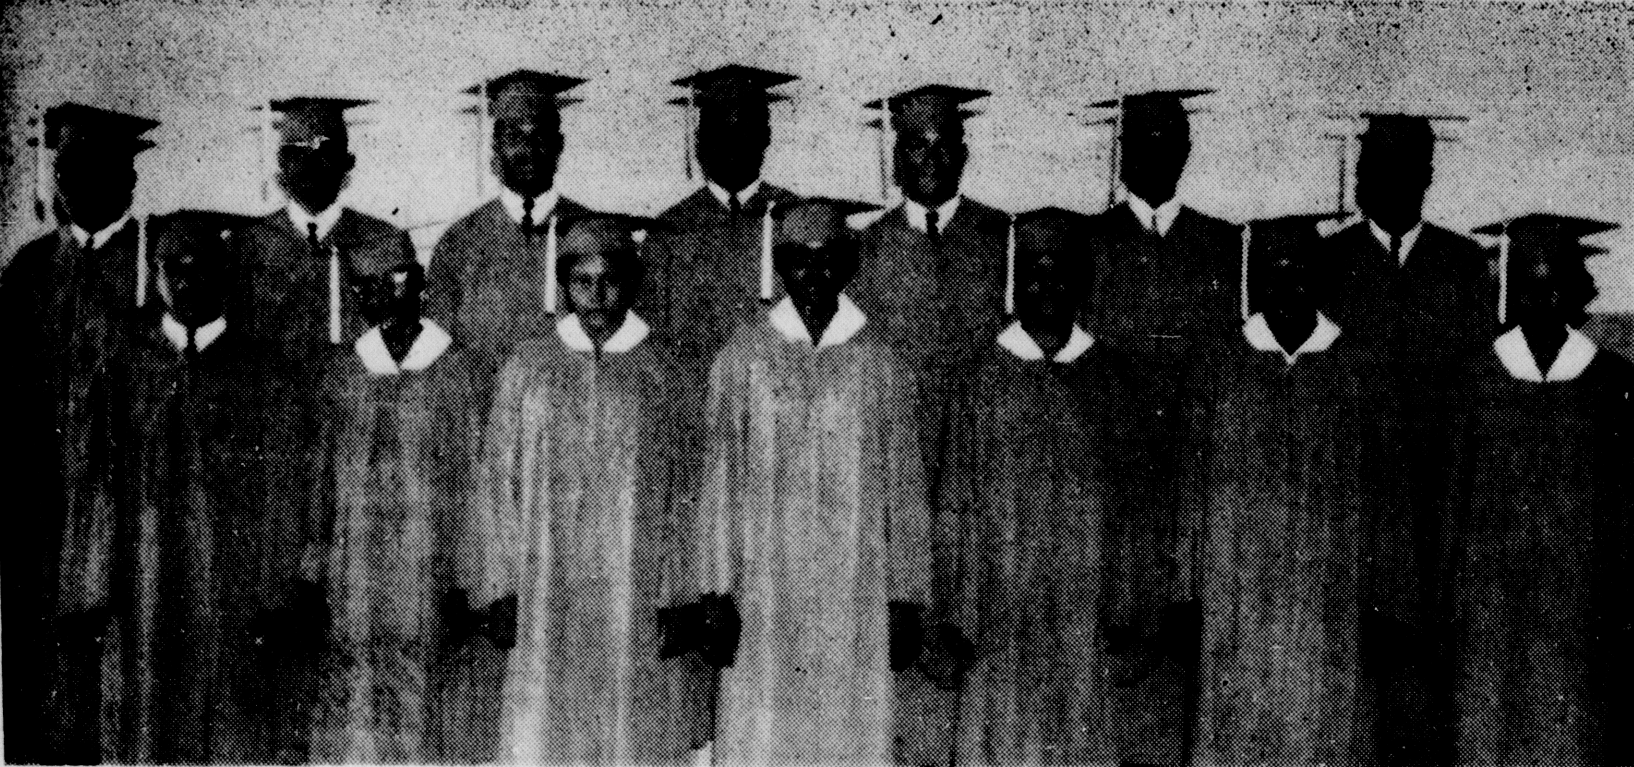

Club program chairmen in Texas took this tip and as a result, more than 5 million Texans enjoyed telephone films last year.

These films cover a variety of informative and entertaining subjects including the award-winning Science Series, the tracking system used in John Glenn's historic space flight, and a much-wanted new film on safe driving, "Anatomy of an Accident."

There's no charge, of course.

To order these free telephone films for your group, just pick up your telephone and dial the telephone business office. We'll take it from there.

Call by number. It's twice as fast.

Time to Pray...

Life can be so full and active ... There are the school hours, time for study, and for a growing child there must be recreation. Also a time for eating is necessary, and a time to be with the family. One of the most needed times is to be with God in prayer. There are times that we should give thanks to God for our food, and times to seek his guidance and watch-care, and there are times to pray with others. This we can do by attending church.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

HOMEMAKING

This year the homemaking courses at Hamlin High School have stressed management for better living. The chief aim of this has been to help students to make decisions everyday—little, common ones and big, unusual, once-in-a-lifetime decisions. Also to learn the meaning of values for "values are a way of life and the thoughts essential for it." Values are different for different people and values change.

Other units studied during each of the three years of homemaking are: family relations, child development, housing, clothing, food and nutrition and health. Also since the Future Homemakers of America is an integral part of homemaking, students study parliamentary procedure in first year, and they also work on Junior and Chapter Home-maker Degrees.

There have been 73 students enrolled in homemaking this year. Four of these entered the "Make-it-with Wool" contest and three of them won at the county level. The participants were Sandra Jayroe, Gloria Jenkins, Mary Debs Rountree and Nancy Stinnett.

Four students entered the Texas Federation Clubs Vogue Sewing Contest. They were Anna Adams, Lou Ann Hawkins, Gloria Jenkins and Joyce Smith. Gloria won third at the District level.

SUCCESS

Success is a relative thing, someone said. But each of us strives for it and plans his life and actions to achieve it. We wish you success in this most complicated society, but we would remind you not to achieve it at the sacrifice of self respect. Many people write that our young people are weak and unable to carry on the American tradition. This we do not believe. We have the utmost confidence in you all.

County HD Agent Gives Spring Housecleaning Tips

With the coming of spring comes an annual project for homemakers: spring housecleaning.

Chances are that the floors are in for a good scrubbing. Here are some suggestions for floor care from Mary Y. Newberry, Jones County Home Demonstration Agent. To remove old wax, follow the U. S. Department of Agriculture's For-

est Service suggestions for using rags moistened with turpentine or other paint thinner. A final rinse with soap and warm water will be necessary, but do this quickly so the water won't have time to reach the wood or to turn shellac coating white.

Floors will last longer if they are waxed regularly. This should be done every four to six months. If there are children in the home there will probably be a need to touch up

some spots often. Even inkstained areas—such as places where water has stood for some time, sanding may be required. After the stain has been removed, the next step is to patch the area with sealer and buff with a pad of steel wool. The patchwork will look much better than the stain.

In 1960, 10% of those paying social security taxes were over age 60.

2,500,000 employers made social security reports in 1940.

DePRIEST HONOR GRADUATES—Jack Breedlove, left, son of Mrs. L. E. Breedlove, is valedictorian of the Oscar DePriest High School graduating class. He plans to attend Prairie View College. The salutatorian honor is being shared by Bertha Douglas, center, and Johnny Davis, right, who tied for the position. Bertha, daughter of Mr. and Mrs. A. F. Douglas, plans to attend Bishop College, majoring in art education. Johnny, son of Mr. and Mrs. Richard Davis, plans to secure employment after the closing of school.

FAIRVIEW NEWS..

By MRS. ELMER JOINER

Wind, wind, wind is about all that seemed to happen out our way the past week. The wind has blown day and night which makes it so hard on the cotton farmers, trying to get little cotton up without too much moisture anyway. The dry, hot weather is bringing the wheat nearer to harvest every day. The opinion of some of the men is that it will be ready for harvest in two weeks and it looks like it will make a fair crop again this year.

A good crowd was at church again Sunday, which was Mother's Day. We are not going to say we had any visitors as they have about become one of us, and we extend a warm welcome to them any time they can come.

Corsages were given to honor the oldest, youngest, and the mother with the most children present. Mrs. Johnny Lewis received the corsage as the oldest, although she had some pretty stiff competition. Mrs. Jack Haugherty was the youngest, and Mrs. H. L. Ford with the most children present, having four of her family with her.

Mid week services were well attended with 28 persons being there. As the men were all so busy planting that was a good crowd for our little group, and we say again if you enjoy singing come and take part in the song service with us on Wednesday night.

Mrs. Marvin Johnson and little sons of Amarillo, spent several days last week with her parents. Mr. and Mrs. Winston Gray, having come home to visit while her husband was away on a business trip. They were also visitors at the Wednesday night services.

Another visitor was Ray Houchin, brother-in-law of the pastor and wife. He lives in Lubbock, but spent last week in Abilene on business, and

was a guest of the Lewis family. Linda Goodwin attended a slumber party last Friday night held in the home of Jeannie Young, in Hamlin.

Mr. and Mrs. E. A. Henry had their sons and children, from Elgin and Snyder, as guests over Mother's Day.

Mr. and Mrs. Joe Ford had three of their children with them on Mother's Day. Mr. and Mrs. Eudell Ford of Big Spring, Mr. and Mrs. Willard Herrington and children of Abilene and Mr. and Mrs. Joe E. Ford and children of Hamlin were all present.

Mr. and Mrs. J. E. McCoy, Kay and Larry, Mr. and Mrs. Jimmy Joiner, Jeannie and Ronald, ate lunch with Mr. and Mrs. Elmer Joiner Sunday.

Mr. and Mrs. Bill Clements and girls, Midland, visited with Mr. and Mrs. Flavil Holmes Saturday night.

Sunday, Mrs. Holmes' sister, Mr. and Mrs. R. O. Clements, Pampa, visited with the Holmes.

Mr. and Mrs. Jack Wright and Melinda, also spent Sunday with her parents, Mr. and Mrs. Flavil Holmes.

Mr. and Mrs. Rex Jones and children, Abilene, visited with Mr. and Mrs. Mel Jones Sunday afternoon. We just want to say that our church, in connection with the Tuxedo and Corinth churches, is very proud of the movement started by them to put signs up on our highways in the fight against Alcohol. A very large, conspicuous one has been erected at the crossroads at Tuxedo, by the Jones County Brotherhood Association, as well as several smaller ones by the various churches. In the recent Brotherhood meeting in Stamford it was planned to take the plan to the District as well as county wide, and who knows how far it could spread from there. The breweries spend a fortune advertising their products and the church can only do the same in the fight against them, and advertising what they stand for and have to offer.

Jones County 4-H Members Take 2 District Firsts

Jones County 4H club members took two first places in the Extension District III Elimination Contests at Wichita Falls last Saturday, according to County Extension agents, Mary Newberry and Kirby Clayton.

Gary Harvey and Bob Doty of the Lueders 4H Club won first place with a safety demonstration on "First Aid For Snake Bites."

Judy Clayton and Sherron Parks from the Eager Beaver 4H club in Anson, won a first place ribbon in a poultry marketing demonstration entitled "Know The Eggs You Buy."

Other winners included a third place Civil Defense Demonstration by David Drummond and Gary Cauble of Hamlin 4H club, and a third place 4H Share the Fun Festival from Anson 4H.

There are 22 counties comprising Extension District III, and first place Senior groups in the district will represent the district at 4H Round-Up in June at Texas A&M College.

Accompanying the teams to Wichita Falls were adult leaders, W. M. Holloway, Tony Jones, LeRoy Vaughn, M. D. Harvey and Extension Agents, Mary Newberry and Kirby Clayton.
